3.2.1 - Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge (patents filed, published, incubation center facilities in the HEI to be considered).

The institute provides a conducive environment for the promotion of innovation in pharmacy, fostering creativity and practical problem-solving among its students and faculty. With a focus on nurturing innovative ideas and translating them into impactful outcomes, the institution offers extensive support through advanced facilities, expert guidance, and collaborative platforms.

Infrastructure and Research Facilities: The institute is equipped with state-of-the-art instruments, including HPLC, FTIR, Gel Electrophoresis, UV-Visible Spectrophotometer, and Cell Analyzer, Homogenizers, Actophotometer, Analgesimeter, Histamine Chamber, Rotarod apparatus, Digi Library to motivate students and faculty to implement theoretical knowledge into practical projects and innovative research. These sophisticated instruments enable the formulation, evaluation, and optimization of pharmaceutical products to address societal needs effectively.

Students and faculty are further supported by the institute's **CCSEA-approved animal house**, which facilitates in vivo preclinical research under the approval of the Institutional Animal Ethics Committee (IAEC). Clinical research is conducted in collaboration with PSIMS&RF under the guidance of the Institutional Ethics Committee (IEC).

Fostering Innovation Through MSME Incubator and Events: A standout feature of the institute's innovation ecosystem is its **MSME Incubator**, which plays a pivotal role in nurturing innovative ideas and entrepreneurial ventures. Through this platform, students and faculty receive mentorship, funding support, and access to resources necessary for transforming their ideas into viable products. The institute actively encourages participation in **hackathons, product expos, and ideathons**, providing students with opportunities to showcase their innovative solutions on national and international platforms. These events foster a spirit of competition, creativity, and collaboration, preparing students to address real-world challenges with confidence and ingenuity.

Integration of Advanced Learning Tools: The institute ensures students gain hands-on experience with cutting-edge technology by incorporating advanced tools like the **ExPharma software** in the pharmacology lab. This software allows students to simulate pharmacological experiments, enhancing their understanding of complex concepts while adhering to ethical standards. This integration of technology into education bridges the gap between theory and practice, making students industry-ready. The institute also provides access to a well-equipped library with subscriptions to **DELNET** services, offering a wealth of e-journals and e-books to foster academic excellence and research.

Research and Faculty Development: The faculty members are encouraged to undertake research activities apply, research grants utilizing the institute's existing facilities. The supportive ecosystem enables them to engage in meaningful research that aligns with societal needs. Interdisciplinary collaborations and partnerships with industries and academic organizations further strengthen the research outcomes.

Commitment to Knowledge Transfer and Societal Impact: The institution places equal emphasis on the dissemination of knowledge and the societal application of research outcomes. It ensures this through technology transfer mechanisms, patent facilitation, and licensing agreements with industry partners. Participation in product expos and hackathons not only highlights the institute's innovative contributions but also fosters industry-academia linkages.

Hospital Internships through MoUs: Our students benefit from hands-on experience through internships at reputed hospitals, facilitated by Memorandums of Understanding (MoUs) signed with leading healthcare institutions. These internships provide students with exposure to real-world clinical settings, enhancing their practical knowledge, professional skills, and preparedness for careers in the healthcare and pharmaceutical industries.

Objectives:

- To create research culture among faculty and students
- To encourage faculty to improve their skills, knowledge and pursue doctoral degrees
- To encourage students towards idea generation, innovation and product development
- To sign MoUs with Hospitals for internship
- To help understand and register for patenting process
- To present and publish scientific/research papers
- To apply and receive grants to conduct Seminars/Conferences and pursue research projects

Outcome:

Seminars/Workshops: Workshops, Seminars, webinars and orientation session on Entrepreneurship and innovation are organized. Students are provided opportunities to directly interact with outstanding entrepreneurs excelling in their field. Visited nearby industries and promote entrepreneurship skills

Research Projects: Research culture is introduced to students from the Undergraduate level in project works. PG Students are encouraged to do their project works at various research laboratories and industries. Encourage faculty to apply for research grants.

List of Equipment ELX 800 Plate Reader-200000, Polytron Homogenizer-200000, Cooling Centrifuge-100000

12. Duration of the Project Proposal [in months] :

36

13. Credibilities

Awards:

Research Specialization:

Diabetic Wound healing, Diabetes, Neurodevelopmental disorders, Neurodegenerative diseases, Obesity, Glioblastoma

Research Experience:

05

14. Research Outputs/Outcomes in the last 5 Years

Number of publications in the last 5 years	14
Number of Patents in the last 5 years	1
15. Available Institutional Facilities	
Blood Cell Analyzer, Animal House, UV Spectrophotometer, HPLC, Dissolution Apparatus, Disintegration apparatus, Sterility Chamber, Tablet Punching Machine, Magnetic Stirrers with beads, Digital pH meter, Water bath, Microclean 103 sonicator, Centrifuge Normal and Micro, Autoclave, Filtration assembly, Orbital Shaker , all pharmacological equipments viz, actophotometer, electro- convulsimeter, Rota rod apparatus, Analgesimeter, Pole climbing apparatus, Histamine chambers	
16. Schemes already completed	0
17. Schemes in hand	0
18. Keywords seperated by comma(,) (at least 5-10, relevant to the proposal)	
	Diabetic Wound healing, Type II Diabetes, Inflammatory markers, Wound dressings, Molecular biology, Chitosan, dehydrozingerone, Silver sulfadiazine, Matrix Metalloproteases, TNF-A
19. I Certify that all the details declared in the form are correct and complete:	Yes
20. Document(in PDF) of Detailed Research Proposal is attached [Yes/No]:	Yes
21. Document(in PDF) of Attestation Certificate (in PDF) is attached [Yes/No]:	Yes
