Best Practice – II

1. Title of the Practice: “Green Economy”

2. Objectives of the Practice:

- To protect green environment in the campus
- To create good ecosystem to students to pursue their higher studies
- To have sustainable development
- To increase the green cover on the campus
- To reduce the pollution due to vehicular movement

3. The Context:

Many students from various parts of Telangana State, with different backgrounds come to the Vaagdevi pharmacy college to pursue higher education. It is necessary to create good ambience and amusing environment to the staff and students of the Vaagdevi pharmacy college for their comfortable and healthy stay. In order to reduce the pollution due to vehicular movement on the surrounding roads of the Vaagdevi pharmacy college and inside the campus, it is vital to increase the green cover on the big campus of the Vaagdevi pharmacy college.

4. The Practice:

The Vaagdevi pharmacy college has taken several initiatives for keeping the campus clean and green for sustainable development. It undertakes a mega plantation drive every year in the beginning of the monsoon. Several hundreds of plants are planted by staff and students every year under the programme “HarithaHaaram” initiated by the Government of Telangana State. The students go to the respective departments using pedestrian friendly. Outside vehicles are prohibited to enter the campus and thus controlling the carbon dioxide emission.

5. Evidence of Success

Rain water harvesting has been done in the existing buildings and it is made mandatory to conserve rain water through water harvesting pits in all the new/proposed constructions in the campus and that there was spurt in the increase of ground water level and also quality of ground water level. The bore wells on campus got recharged and the water shortage was completely erased from the campus and also surrounding colonies of the campus.

NSS unit of Vaagdevi Pharmacy College has done a lot of work to make the campus green through avenue plantation in the campus. Avenue plantation of the Vaagdevi Pharmacy College is about 200 types of medicinal plants planted on the campus.

6. Problems encountered and resources required

A large number of people are required to maintain check dams, water harvesting gardens, trees, plants, water bodies' and involving lot of expenditure etc. Each department should maintain gardens in front of their buildings. Tight security from all directions is required to protect from the cattle as the campus is very huge.
