2.5.1. Mechanism of internal assessment is transparent and robust in terms of frequency and mode

The Institution adheres to the JNTUH academic calendar. Academic calendars are distributed to professors in each department by HODs at the beginning of each semester. All staff members are given copies of the draught academic plan, which is provided in accordance with the academic calendar from the affiliated university. As an introduction, each division would be asked to provide a preliminary plan that would be reviewed by the Academic Monitoring Cell. The personnel will rigorously adhere to the academic schedule approved by the principal. The handbook contains information about the topic's text, reference materials, and semester academic plan. The subject educator also clarifies these items before the beginning of the semester. The University calendar is shown on the notification board and is also available online, giving tentative dates for upcoming exams, public events, travel, and other activities. Circulars are provided by the Principal to improve the plan of action.

There are two stages of assessment:

1. Internal
2. External

With regard to assessment measures, the Institute abides by the guidelines established by the affiliating university and PCI. The Pharm. D. internal and external marks for theory and practical are 30 and 70, respectively. There are 25 and 75 marks total for both theory and practical for M. Pharm (PG) and B. Pharm (UG), respectively. Two internal exams and one make-up test are given to B. Pharm. students each semester. Three internal evaluations are requested for Pharm. D, and the top two will be taken into consideration.

Exam scripts, selected records, and guides are all very well safeguarded. If a student has any concerns about their scores or is dissatisfied with the results, they may request a recounting or reevaluation of their university exams. They might submit an application to the affiliated university for recounting or reassessment.
